## EDUCATION

### BACHELOR'S IN COMPUTER ENGINEERING (B. Eng.)

September 2018 – December 2022

Ecole Polytechnique de Montreal

(Montreal, Canada)

Relevant coursework: Leadership and Collaborative Work, Data Structures and Algorithms, Object-Oriented Programming, Cloud Computing.

## WORK EXPERIENCE

### NURUN, Full-Stack Developer (Internship)

May 2021 – August 2021

- Program several new sections of a Web internal product using Angular, Typescript, GSAP, rx.js and PHP.
- Design and negotiate features closely with the design team by communicating efficiently.
- Assist to product managers' and product owners' meetings to learn extra knowledge about the PM role.

### NATIONAL BANK OF CANADA, Software Engineer (Internship)

May 2020 – August 2020

- Write documentation for 30+ internal banking software to assist architects in their software redesign process.
- Develop Ansible playbooks to automate the installation of RPA software following Agile development methods.

## PROJECTS / ACTIVITIES

### POLYHX: HACKATHONS, President

May 2021 – Present

- Lead a team of 60 to: organize Montreal's biggest bilingual hackathons, hosting weekly workshops on cybersecurity, and helping fellow students find internships;
- Set up and manage a Jira framework as well as conduct weekly Scrum meetings to coordinate my team's efforts.

### POLYHX: HACKATHONS, VP of Sponsorship

January 2019 – April 2021

- Design an email outreach strategy to reach stakeholders that lead us into securing 30 000\$ in sponsorships in 2019-2020, an increase of 16% from the year before.
- Establish long-lasting bonds with businesses like Google, Morgan Stanley and Bell to sponsor our committee yearly.

## SKILLS

- **Soft skills:** Leadership, Collaboration, Resourcefulness, Structure, Detail-Oriented, Public Speaking.
- **Management tools:** Jira, Kanban, Trello, Agile Methodologies, Git, GitHub, UML.
